

International Conference on Advances in Polymer Science & Technology  
23-25 November, 2017 | Radisson Blu Hotel, Dwarka, New Delhi, India

## Plenary Talks

#	Title	First Name	Last Name	Abstract Title	Institution	City	Country
180	Prof.	Andreas	Greiner	Electrospinning - a Versatile Tool for the Preparation of Functional Nanomaterials	University of Bayreuth	Bayreuth	Germany
196	Prof.	Didier	Letourneur	Polysaccharide-based scaffolds for tissue engineering	INSERM	PARIS	France
198	Prof.	Kwangmeyung	Kim	Theranostic glycol chitosan nanoparticles for heterogeneous tumors	Korea Institute of Science and Technology	Seoul	Korea (south)
331	Prof.	Akio	Kishida	Control of biological response of polymers by surface modification	Tokyo Medical and Dental University	Tokyo	Japan
334	Dr.	Manohar Virupax	Badiger	New Hydrophobically Associating Polymers and Gels: Synthesis, Rheology and Applications	CSIR-NCL	Pune	India
394	Prof.	Amar Kumar	Mohanty	Circular Economy from Sustainable Biobased Materials – Innovation in Green Manufacturing	University of Guelph	Canada	Canada
409	Prof.	Frederic	Guittard	Biomimetism for innovation ... and revolution	University of Nice	Sophia Antipolis	France
	Prof.	Dhanjay	Jhurry	Biodegradable Polymers : Designing and Applications in Human Healthcare	University of Mauritius	Reduit	Mauritius
